**CLASS 53 ANNUAL CLASSIC CAR AND ANTIQUE TRACTOR SHOW—Tuesday September 13, 2011**

Committee: Lynda Simpson 705 357 1194

In the north end of the Fair Grounds, we will have cars from our past on display. Come and look over these great machines, bring back some memories, and talk to their owners who have spent many hours restoring them.

Vintage Tractors will be on display in the ball diamond area. Many of these beauties will join the parade on Wednesday and then be on display all day for everyone to see and enjoy. Don't hesitate to talk to the owners who have proudly and lovingly restored them.

**Our Showcase Tractor is a FARMALL F-14**

Purchased from original owner's son, the "F14" was manufactured in 1938-39 at the Farmall Plant at Rock Island, Illinois with 2400 tractors produced, not many compared to the larger Farmall M with their numbers hovering close to 200,000 tractors. The Farmall 14 develops 14 HP which is the same power as today's riding lawn mowers.

On its original farm at Cottom, Ont, it was purchased new, with steel wheels. Due to war restrictions rubber tires were not available. Nearing the end of the war the steel wheels were cut off and rubber tires added, for a smoother ride and more pulling power.

The Farmall14 was capable of handling a 2-furrow plow and was the only tractor on the Cottom area farm into the 1940's.

This is one of the many tractors in the Harlaine collection and is used for light duty work around our farm today.
